Contactless Funeral Donations

Contactless Funeral Donations

In Memoriam donations managed by funeral directors is circa £100 million per year and growing. With the rapid decline in cash use, contactless donation boxes and digital services allow donors who don't carry cash the ability to donate to a loved ones chosen cause.

Together with Charities Trust, we are offering an inclusive service that allows you to offer collection of contactless and digital donations on the behalf of over 33,000 charities, including most major UK charities.

We believe our services provide a unique and more memorable way for families and their guests to donate to the chosen causes coupled with a simple and easy to use platform which funeral services can manage in house.

Donations Paid Directly Into The Charity Bank Account

No waiting times, no further arrangements needed, no sending off money to the charity. The donor simply donates either face to face or online. Funds are then settled to the charity by Charities Trust on a weekly basis net of 5% processing charges.

Claim gift Aid by Donating Online

Gift Aid is currently available on all digital channel donation pages including our recently launched MyGivingHub which enables donors to match up their giving via our contactless devices as well as online. This is achieved using tokenisation which recognises when the same cardholder has used their card in both environments.

Change Charities Quickly For Each Funeral

Beneficiary charities can be managed and changed quickly and easily in the Merchant Portal to allow different causes for each funeral. All you need is the Charities Trust ID for the selected charity.

Our quick and simple technology gives you the flexibility to set up your account for the chosen charity in advance of each funeral service, allowing family and friends to select the charity in advance and fundraise for their loved one's chosen causes.

Generate Giving Acknowledgments Online

You can generate and download Giving Acknowledgements from the Merchant Portal that detail how much was raised for the chosen charity. This can be passed along to the friends and family of the deceased so they know how much was raised on their loved one's behalf.

Interactive Donation Capabilities

We can configure our contactless device to have interactive functionality, allowing you to create interactive displays when donations are made. This can be as simple as a thank you message played on a screen, an image of the chosen charity, or even a short video.
